

ENVIRONMENTAL GUARANTEE

100% RENEWABLE ENERGY

Customer Sparebanken Møre

Guarantee periode June 01, 2019 – June 16, 2022

This guarantee certifies that the electricity volume of the company above is hedged by renewable energy sources and that it covers all main energy consuming activities in the company such as for instance; Production, Lighting, Cooling and Heating.

The electricity delivered by Tussa-24 AS originates from hydroelectric power produced by Tussa Energi AS*. Electricity from hydroelectric power production does not generate any radioactive waste or CO2 emissions.

Tussa-24 AS, Ørsta, date: June 01, 2019

Margrete Heltne Hovde

Sales Manager Energi Tussa-24 AS

Frank Vatne

Energy Advisor

Tussa-24 AS is co-operating with Ecohz ASA who is handling the documentation which certifies that the electricity delivered by Tussa Energi AS originates from renewable energy sources. The electricity's origin from renewable energy sources is documented with Guarantees of Origin. Guarantees of Origin are a reliable documentation of the production and origination of clean energy and are issued according to the European EECs-standard and national regulations based on EU-Directives. The Guarantees of Origin are issued and redeemed within the Norwegian system for Guarantees of Origin, operated by Statnett SF in accordance with the Energy Act § 4.3 and the EU Directive 2001/77/EC on the promotion of electricity produced by renewable energy sources. Accounting of renewable energy production and consumption is carried out by Ecohz ASA. Electricity production and issuing of Guarantees of Origin can be audited according to normal auditing practice. More information can be found on www.ecohz.com.

*If for some reason Tussa Energi AS is not able to deliver the required volume, other Norwegian hydroelectric power plants will complete the delivery.
